Subject: Lori and G-II

Hello,

I would like to share our thoughts and impressions of our experience purchasing our new home in Glendale AZ.

We were nervous about our move from Japan to Arizona but we quickly gained confidence in Lori and G-II. Their technologically advanced approach to the long distance purchase was just what we needed.

Everything went smooth and we moved into our house when we arrived to Arizona. The house was more than we thought it was going to be. The whole transaction went so well we can't think of anything we would have changed.

Thank you,

Jeff and Debbie Campbell
